

Release Plan

Revision Date: 12/3/24**Release Name:** ShiftTree

High Level Goals:

- Have the ability for users to select shifts on a calendar UI, and be given a work schedule after the ShiftTree manager closes the sign-ups
 - Allow users to create, join, and view 1 or more different ShiftTrees at once
 - Users have accounts and do the above through their personal accounts
-

Sprints:

Sprint 1

User Stories	Story Points	Priority
As an unregistered user, I want to register for the service.	5	High
As a registered user, I want to log in to the Service so I can access my account.	5	High
As a manager I want to create new ShiftTrees so that I can use it to schedule shifts.	2	High
As a logged-in user, I want to see a Dashboard when I login so that I can navigate to different sections (join a ShiftTree, view my ShiftTrees, edit my profile, etc.).	2	High

Sprint 2

User Stories	Story Points	Priority
As an employee, I want to see and select shifts I am available in the ShiftTree so I can then sign up for them.	8	High
As a manager, I want to create shifts within a ShiftTree with set dates/times that employees can then sign up for.	5	High
As a manager I want to invite users to join my ShiftTree so I can assign shifts to	3	High

them.		
As an employee, I want to join a ShiftTree given to me by my manager so that I can be part of my job's shift selection process.	2	High
As a user, I want to see all available shifts in a shiftTree.	5	Medium
As a manager I want to be able to approve/deny people joining the ShiftTree, so that I can ensure that bad actors do not join the ShiftTree.	3	Low

Sprint 3

User Stories	Story Points	Priority
As a manager I want to automatically generate shift assignments based on employees' selections.	21	High
As a user, I want to see detailed information about the shift.	5	High
As a manager I want to be able to see detailed information for each employee so that I know what shifts they have signed-up for and/or have been assigned to.	5	Medium
As a manager, I want tools to more efficiently create schedules to save time when creating many shifts.	5	Medium
As an employee, I want to rate shifts when I sign up for them, based on how it fits into my schedule.	1	Medium
As a user, I want to be able to export my shifts into my google calendar.	3	Low
As a manager I want to be able to export shift assignments to use in other software.	3	Low
As a user, I want to see if a ShiftTree is still accepting signups from the dashboard.	3	Low

Sprint 4

User Stories	Story Points	Priority
As a user, I want to be able to reset my password.	8	High
As a manager, I want to be able to create shifts with multiple slots so that multiple employees can work one shift if needed.	5	High
As a manager, I want to be able to set the recommended shifts for each of my employees.	13	High
As a manager, I want to see information about the generated schedule from the algorithm.	5	Medium

As an employee I want to be able to "bulk register" for shifts to save time when registering.	3	Medium
As a user, I want to have how the algorithm works be explained briefly, so that I understand what my selections and inputs do.	0	Low
As a manager, I want to be able to import a schedule into ShiftTree and generate a schedule from that data.	3	Low
As an employee, I want to see the username and email of my ShiftTree manager so that I can contact them for any questions or updates.	2	Low
As an employee, I want to be able to export just my shifts so that I can put them into my personal calendar.	1	Low

Product Backlog:

- As an employee, I want to be able to see how much I will be paid for my current ShiftTree.
- As a manager I want to be able to label how much the pay is for each shift so that employees know what they're signing up for.
- As a general user I want to be able to know any extra information about a shift.
- As a manager I want to be able to select a schedule Template and automatically generate that template.
- As an employee, I want to be able to trade shifts with my coworkers.
- As an employee, I want to be able to request coworkers to cover assigned shifts that I suddenly cannot work.
- As a manager I want to be able to add weights to shifts that are higher priority.
- As a manger, I want to be able to copy a ShiftTree
- As a user, I want to ensure that my entered gmail address is actually a real gmail address
- As a manager I want to be able to create orgs with separate channels so that I can differentiate between different shift types
- As a manager I want to be able to manage the employees in my org and their shift selections.
- As a manager I want to be able to add other managers so that they can also schedule the shifts.

Sanity Check:

We should be good, Sprint 4 is highly possible due to good progress in Sprint 1.
